## PROFESSIONAL SUMMARY

Results-driven Senior Mobile Application Developer and Team Lead with 5+ years of experience delivering production-grade cross-platform mobile applications using **React Native**, modern web platforms with **Next.js**, and enterprise **Angular** systems. Proven track record across healthcare, logistics, fintech, ride-hailing, e-commerce, facilities management, retail POS, and **AI surveillance**. Experienced in leading teams, owning architecture, integrating third-party services, and shipping App Store / Play Store products from concept to production.

## TECHNICAL SKILLS

**Mobile & Frontend:** React Native, TypeScript, JavaScript, React.js, Next.js, Angular, Redux Toolkit, Electron

**Backend & Services:** REST APIs, Firebase (Auth, Firestore, Notifications), Payment Gateways, Google Maps, Agora, CometChat

**AI & Domains:** AI / Computer Vision surveillance systems, enterprise retail POS, logistics platforms, healthcare workflows

**Tooling:** Git / GitHub, Android Studio, Xcode, Agile / Scrum, Vercel

## PROFESSIONAL EXPERIENCE

### Team Lead — Mobile Applications

VirtueXolutions · Dec 2023 – Present

- Lead React Native engineering teams across multiple client products; own architecture, planning, code reviews, and releases.
- Coordinate with stakeholders on delivery for logistics, retail POS, AI surveillance, and enterprise mobile systems.
- Mentor developers and establish coding standards, CI-ready workflows, and scalable project structure.

### Senior React Native Developer

VirtueXolutions · Dec 2022 – Dec 2023

- Designed end-to-end application architecture and shipped production-grade mobile products.
- Integrated payment gateways, real-time chat, live streaming, and mapping solutions.

### React Native Developer

TAFSOL · Mar 2022 – Dec 2022

- Built fintech, healthcare, multilingual, and e-commerce applications.
- Implemented Firebase authentication, push notifications, and third-party API integrations.

### Associate Developer

SAS Solution · Nov 2020 – Feb 2022

- Progressed from intern to professional developer contributing to hybrid mobile application development and maintenance.

## SELECTED PROJECTS

- **AI Surveillance System** — Intelligent video monitoring currently implemented at **California** and **Broadway** venues; computer-vision assisted enterprise surveillance workflows.
- **Order Intel POS** (Angular · Electron roadmap) — Multi-brand point-of-sale frontend for **Costa Coffee**, **Broadway**, and **California**; designed for Electron Windows EXE packaging. Demo: [pos-frontend-rdsr.vercel.app/pos](https://pos-frontend-rdsr.vercel.app/pos)
- **FleetEx Logistics** (Next.js) — International freight & supply chain company website. [fleetexlogistics.com](https://fleetexlogistics.com)
- **Rapid Express Logistics** (Next.js) — Domestic & international logistics platform with client portal. [rapidexpresslogistic.com](https://rapidexpresslogistic.com)
- **LookClean** — Barber booking & e-commerce app live on **App Store** and **Google Play**.
- **Facilitate** — Facilities / work-order management app live on **App Store** and **Google Play**.
- **RideLynk** — Ride-hailing platform (User & Rider apps) with real-time tracking and payments — **Google Play**.
- **Daweeye** — Multilingual healthcare and hospital management platform.
- **HatchSocial** — Social network with chat and live streaming (Agora / CometChat).
- **Indoor Positioning App** — BLE-based indoor navigation for Dubai malls.
- **EndorseMe** — US-based freelance marketplace platform.

## HIGHLIGHTS

- 5+ years building and shipping commercial mobile and web products
- Apps published on both Apple App Store and Google Play Store
- AI surveillance deployed in production venues (California & Broadway)
- Angular POS architecture prepared for Electron desktop distribution
- Team leadership with stakeholder communication and delivery ownership

EDUCATION

BS Computer Science

Bahria University, Karachi Campus · CGPA: 3.2
